Lefkas & Gouvia Marinas

Actualidad 21st Century International Award for Prestige and Quality

On Saturday the 20th of March, at the Divani Caravel hotel, in Athens, Lefkas and Gouvia marinas were awarded with the Actualidad International Award for Prestige and Quality, by the Spanish magazine Actualidad.

We feel that this award reflects to our continuing efforts to offer premium quality service to our customers.

The final countdown: 100 days to the Olympic games in Athens

With actually less than 100 days to the Olympic games, Athens seems like the biggest construction site. However, works are nearly at the end and the results are really amazing.

Construction works also concern marinas. Greece is experiencing changing times and marinas are really improving offering high quality services and facilities at far more reasonable prices. One of the marinas under our management, Zea marina in Athens

is moving with a very fast pace towards that direction. New marine installations, upgrading the existing building facilities, upgrading the level of the services & facilities offered and installation of a waste disposal system are some of the works being carried out.

The marina will be ready in time for the Olympic games to host visitors from around the world.

We're on the Web!

www.medmarinas.com

Wireless internet by **WLAN** International in our marinas.

With the sole aim to continually improving the services offered and meeting the needs of our customers, **Zea, Lefkas, Gouvia and Kalamata** marinas, in the order mentioned, will soon be part of the European Marina Communication Network offering the service of wireless internet to our customers.

Mobile computer owners will be able to work online or surf the web thus making it possible to spend more time in their boat.
